Awnings

***only the Linasol, Lumisol and Squaro awnings are available in North America**

An awning for every architectural style

winsol

Welcome home!

More living happiness with Winsol

Do you know that wonderful feeling of **coming home** after a long and busy day? Winsol works with you to create the ultimate home, where you, your family and friends can relax in comfort. All our HOME and OUTDOOR products are fully **customised** to your home, with happens in our **Belgian manufacturing environment**. This allows us to ensure the highest quality of our products.

As for you? All you have to do is **enjoy** your outdoor living space, awning products or patio cover.

Winsol. Your partner for your dream home

1. More than 145 years of experience
2. HOME, OUTDOOR and VERTICAL SHADING products for every architectural style
3. Award-winning and customised Belgian design
4. For total finishing of your home
5. Always a Winsol point of sale
6. Years of carefree enjoyment thanks to our guarantees
7. Focus on sustainability, safety and comfort
8. Customisable in hundreds of paint and fabric colours
9. Installation and finishing to perfection
10. A home to enjoy, inside and out

Why choose an awning?

Enjoying your garden or patio during the nice weather... Doesn't that sound lovely? And under an awning, a solar tent, a folding-arm awning or a sunblind, you benefit from the cooling shade and protection from the sun.

The benefits at a glance:

- ▶ A cool shade on your patio
- ▶ Protection against UV rays from the sun
- ▶ Cooling inside, as the sun cannot heat the glazing
- ▶ Sustainable & natural cooling without consuming air conditioning
- ▶ Solution: easily installed & no hassle with parasols
- ▶ Closed cassette on the facade when not using the awning

Whatever the style of your home may be, at Winsol you'll definitely find an awning that suits your home!

LINASOL

Awning with light and music

With Linasol, you create your own oasis on your patio. Enjoy shade, ambient lighting, smartphone control and discreetly built-in speakers. Linasol is the perfect sun awning for lovers of technology and music! And all of this in a streamlined and minimalist cassette.

- ▶ Dimensions up to 14 m wide
- ▶ White or coloured LED lighting
- ▶ Available in any RAL colour
- ▶ Belgian design & numerous options

Features

- Maximum dimensions: up to 14 m wide / 4-m drop
- Compact sunshade with a sleek, rectangular casing
- Wind class 3: up to 6 Beaufort wind resistance
- Standard with 2-cable arms or 4-cable arms
- Available with Bluetooth speakers and 3 LED lights
- RAL paint colour of your choice, no surcharge

Linasol differs from our other awnings due to the streamlined rectangular cassette and the countless options.

The ultimate awning for all the comforts of your patio.

SQUARO

Extra privacy thanks to the Volant plus

Modern awning with a streamlined and contemporary design and integrated LED lighting in the cassette, front bar or folding arms. Need extra privacy? A motorised screen fabric on the front frame is also an option. Always custom-made.

- ▶ Volant plus screen fabric integrated in the front frame
- ▶ Built-in white LED lighting
- ▶ Available in any RAL colour
- ▶ Belgian design

Features

- Maximum dimensions: up to 7 m wide / 4-m drop
- Design sunshade with square 20 x 20-cm casing
- Wind class 3: up to 6 Beaufort wind resistance
- Standard with powerband folding arms
- Available with Volant plus and 3 LED lighting options
- RAL paint colour of your choice, no surcharge

The optional Volant plus of 1 or 1.5 m high is an additional awning fabric rolled up in the awning's front frame. You can roll it out via remote control to the desired height.

Strong folding arms: the basis of your awning

An awning from Winsol? **That's a feeling of coming home to your patio** and enjoying it carefree. But why choose such a sun tent? We provide you with no fewer than 5 good reasons: from the beautiful design to the ultra-strong folding arms.

1 Your awning will last for up to 10 times longer

The ultra-strong folding arms and casing design form the basis of your awning. Together with the anchoring in the facade, they bear the weight of the awning so you can enjoy a patch of shade on your patio without a care in the world.

Winsol folding arms are fully tuned to the requirements an awning must meet today: ultra-strong thanks to extra steel cables or a Powerband with a long service life in the elbow of the arm. Our awnings and folding arms are rigorously tested to perform as many cycles as possible in different weather conditions. So rest assured, your Winsol awning will last a lifetime!

2 No worries in strong winds

Our folding arms have up to 50% thicker profiles and hinges made of forged aluminium. Combined with the 4-fold self-lubricating steel cable or Dyneema Powerband in the arm, our awnings can also withstand harsh wind speeds of up to 6 Beaufort. Thanks to these folding arms, our Squaro, Linasol, Lumisol and Luno awnings belong to the highest European wind class 3.

3 Integrated atmospheric LED lighting

At Winsol, we think beyond the practical, sun-resistant side of the awning. That's why we also offer extras to increase your patio comfort. Such as LED lighting in the cassette, front frame or folding arms. Dimmable, white light with an adjustable colour temperature or even atmospheric RGB light. There are so many possibilities.

Did circumstances prevent you from choosing extra lighting in the arms or cassette? No problem, the LED strips can also be easily added afterwards.

4 Surfaces up to 14 metres wide

Who doesn't dream of a patio with plenty of shade on hot summer days? Thanks to the best materials and ultra-strong folding arms, our awnings can handle large spans (such as 7 x 4 metres), without compromising on wind resistance.

5 Bumping your head is a thing of the past

You may have experienced it already... You stand up from your patio chair and bump your head against the elbow of the folding arm. Bruises and bumps on your head are a thing of the past from now on, because our folding arms have a higher clearance height! The elbow angle of the arms has been reduced by half, so it is now a lot safer!

Did you know...

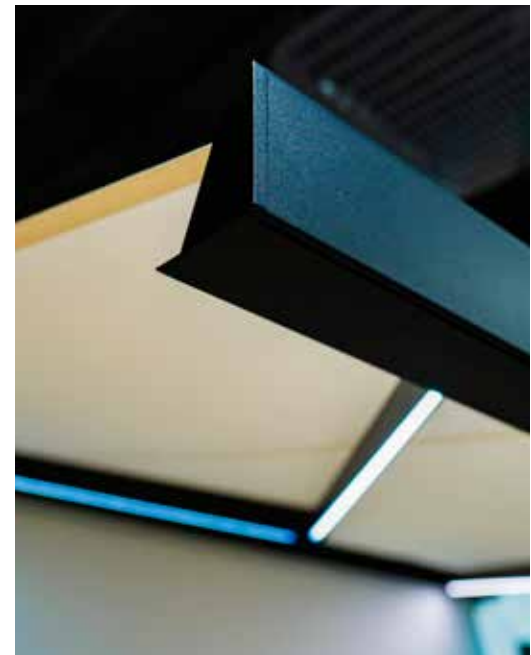

...more and more people are opting for wide awnings with a larger drop? The average awning today is wider than 5 m and has a drop of more than 3.5 m. **That's large!**

Dyneema Powerband - arm

4-way cable arm

LUMISOL

Our most popular awning

... is Lumisol, with its subtly rounded rectangular cassette. With our most popular awning, you bring a strong piece of craftsmanship into your home. Always custom-made.

- ▶ Integrated white LED lighting in cassette, arms or front frame.
- ▶ Compact closed casing
- ▶ Fits any type of facade
- ▶ Most popular Winsol awning
- ▶ All RAL colours at no extra cost

Features

- Maximum dimensions:
up to 14 m wide / 4-m drop
- Compact sunshade with fashionably aligned housing
- Wind class 3: up to 6 Beaufort wind resistance
- Standard with 2-cable arms or 4-cable arms
- Choice of 3 dimmable LED lights
- RAL paint colour of your choice, no surcharge

Lumisol is the awning found above many patios. That's because of its subtle and timeless design and its versatility.

LUNO

Awning for small to medium-sized patios

Opt for a cozy and warm look thanks to a Luno sunshade in one of the 12 popular colors. Lighting is possible in the folding arms via 2 discreetly integrated LED strips.

- ▶ Widths in multiples of 30 cm
- ▶ Shaded area up to 21 m² (3.5 m x 6 m)
- ▶ Compact casing
- ▶ Rounded design

Features

- Maximum dimensions:
up to 6 m wide / 3.5-m drop
- Available width: from 3 m to 6 m in
increments of 30 cm
- Compact awning with elegantly rounded
casing
- Wind class 3: up to 6 Beaufort wind resistance
- Standard with 2-cable arms or 4-cable arms
- Optional with dimmable or on/off LED lighting
in the arms
- 12 standard paint colours including
3 with textured lacquer

Luno is a good choice for those looking for a basic awning with a long lifespan from only the best materials.

Lighting for any occasion

Do you like to linger with friends or family around the table during warm days? Then you will certainly appreciate the built-in LED strips with direct light in the cassette and/or the folded arms or indirect light in the front bar.

Our **built-in LED lighting options** include:

- ▶ **direct white LED strip** in the cassette and/or arms, ideal for bright light whilst reading
- ▶ **indirect white ambient lighting** in the front bar, for a cosy atmosphere during a dinner or an evening among friends or family
- ▶ **dimnable**: adjust the light intensity from the comfort of your sofa with the optional dimming function
- ▶ With Squaro, Linasol or Lumisol, up to 2 lighting systems can be combined

Casing

The closed casing of your awning protects the fabric and the folding arms from the weather, dust and insects. Unfortunately, this is not the case with an awning featuring an open casing. The cassettes have a beautiful design that suits any architectural style.

Folding arms

Together with the anchoring in the wall, the folded arms support the weight of the awning when extended. They play a significant role in determining the awning's quality. Winsol exclusively utilizes premium materials such as forged aluminum hinges in the arms. Thus, ensuring the longest possible lifespan.

Front bar

The front bar of your awning is also made of sturdy material. You can personalize this front bar with indirect white ambient lighting. This way you can make it extra cozy on a fun evening outdoors.

Combisol 1200

Shade on the balcony

Thanks to its unique suspension system and steep angle of inclination, this awning is suitable for use above the patio of small and large balconies. You can choose from as many as 12 RAL colours.

- ▶ Angle of inclination up to 70°
- ▶ Oval closed cassette
- ▶ Perfect for balconies

Features

- Maximum dimensions:
up to 6.5 m wide / 3.5-m drop
- Sunshade for patio or balcony with oval-shaped cassette
- Wind class 2: up to 5 Beaufort wind resistance
- Standard with 2-cable arms / chain arms optional
- 12 standard paint colours including 3 with textured lacquer

Did you know that Combisol 1200 is the only Winsol awning that can be mounted at an angle of 70°?

LOFT

Combisol 550

Budget awning without casing

Then Loft is an excellent choice. This awning is made from the same components as our other outdoor blinds but, like the Combisol 550, has an open cassette. The many options are not possible here.

- ▶ Half-open or open cassette
- ▶ Excellent price/quality ratio
- ▶ Aluminium casing
- ▶ Strong and dimensionally stable arms with a long lifespan

Features

- Maximum dimensions: up to 7 m wide / 4-m drop (LOFT)
- Maximum dimensions: up to 12 m wide / 3.5-m drop (Combisol 550)
- Sturdy sunshade with or without protective top cover
- Wind class 2: up to 5 Beaufort wind resistance
- LOFT: standard with chain arms (Combisol 550: 2-cable arms)
- 12 standard paint colours including 3 with textured lacquer

Loft is the best choice for those who are guided by budget and functionality but do not want to compromise on quality.

A wide range of colours

Follow the trends or do your own thing

Are you ready to show your true colours? The colour of your awning is an important decision. Once chosen, there is no turning back. Will you go for a trendy colour like matte black, the same colour as your windows to create a uniform look, or do you want your awnings to stand out a bit?

Optional Seaside pre-treatment *

The colour coating personalises your awning while protecting the aluminium of the construction. Did you know that at Winsol, we always think one step ahead? That why we can give all awnings a Seaside pre-treatment before painting them. This allows the paint to adhere better and makes your awning **more resistant to corrosion**. We are happy to offer you a 10-year warranty on the colour adhesion of your aluminium awning.

Exclusive colours via powder coating

We keep a close eye on trends and are happy to make sure you can order the **most popular paint colours** immediately at a **cheaper rate** as well.

Prefer a different RAL colour? That's possible too! You choose the colour finish: matt, shiny, textured or metallic.

Prefer a colour with an exclusive and luxurious look? Our anodisation colours natural, gold, champagne, copper and black give your awning and your home that extra touch of sophistication.

12 popular standard colours including 3 textured paints

					
Light ivory RAL 1015	Anthracite grey RAL 7016	Light grey RAL 7035	Grey-brown RAL 8019	Cream white RAL 9001	Jet black RAL 9005
					
Blank aluminium RAL 9006	Pure white RAL 9010	Grey aluminium RAL 9007	Anthracite grey textured RAL 7016 ST	Quartz grey textured RAL 7039 ST	Jet black textured RAL 9005 ST

The final colour may differ from this display. We recommend viewing the colours via the samples in our showrooms.

PERGOLA Z!P

An awning with extra seasons

A zipped roll-up fabric as a roof provides shelter against both sun and rain. The LED lighting and the outdoor blinds on the open sides of the Pergola Z!P make your patio ready for a season that lasts longer than summer.

- ▶ Solar-powered Volant plus, integrated in the front bar
- ▶ Choice of 3 LED lights
- ▶ Closable with windproof outdoor blinds
- ▶ Available in 3 standard lacquer colours with textured lacquer

Features

- Maximum dimensions per module: 6 m wide / 5-m drop
- Rain-resistant addition with pitched roof and built-in water drainage
- Roof system with zipped acrylic fabric
- Ambience Walls: SolFix outdoor blinds or Volant plus
- Optional: 3 LED lights and Bluetooth stereo system
- 3 standard colours with textured lacquer: white, black & anthracite

The Pergola Z!P offers you all the outdoor comfort you desire, including a weatherproof and wind-resistant fabric. Moreover, raindrops are drained away through the posts.

WINCUBE

More than an awning

Don't just call it a sunshade, the WinCube patio cover offers much more. This pergola can not only be mounted to the facade, but is also available as a stand-alone construction with 4 posts. The optional outdoor blinds provide extra privacy and protection against the wind.

- ▶ Roof with adjustable pitch
- ▶ Optional white LED lighting
- ▶ Closable with windproof outdoor blinds
- ▶ Available in 12 standard lacquer colours, including 3 with textured lacquer

Features

- Maximum dimensions per module: 6 m wide / 4-m drop
- Tight self-supporting pergola with 4 support posts
- Also available as a wall-mounted sunshade with 2 support poles
- 2 motorised cloths with adjustable drop and gradient
- Lateral wind and rain protection with optional outdoor blinds
- Available with waterproof cloth and powerful LED lighting
- 12 standard lacquer colours including 3 with textured lacquer

The WinCube is a patio cover with a number of technical features such as a roof structure with adjustable pitch. This ensures better drainage and protection against the low-lying sun.

Other types of **sunshade**

Outdoor blinds

If you are looking for an aesthetic way to keep the sun out of your home, outdoor blinds are a good solution. This type of vertical shading blocks the sun's rays, keeping the temperature in your home comfortable at all times.

Conservatory shading

Lose track of time and enjoy your conservatory during those wonderful summer days. Winsol veranda blinds keep your veranda cool in a sustainable and energy-efficient way. Bye bye overheating!

Pergolas with cloth

Meet the Pergola ZIP Cube, a stylish patio cover with roll-up fabric. This pergola with a horizontal roof is attached to the house, just like an awning. Awarded with a Red Dot: Best of the Best Design Award.

Pergolas with louvres

A patio cover or pergola with louvres creates the ideal outdoor space in which to spend time all year round. The aluminium louvres tilt automatically to generate the perfect amount of shade and sunlight. Discover our fully customisable pergolas.
